TITLE OF RESOURCE: Syllabus for: Spirituality and Social Work

TIME FRAME (Check all that apply):
- A semester-long course

DESCRIPTION (Maximum 250 words):
This social justice–informed course provides a framework for culturally competent practice with diverse spiritual populations. Social work has a strong commitment to providing human services that support human diversity and alleviate social injustice. This course provides a more specialized understanding of these commitments in the area of spirituality and religion. Ethical standards commonly enjoin practitioners to obtain the necessary training to work with diverse spiritual groups in a nondiscriminatory, culturally competent manner. In addition, social workers are typically encouraged to understand oppression with respect to religion and to strive to eliminate discrimination based upon religious beliefs, both nationally and internationally. Accordingly, this course lays a foundation for spiritually competent practice with diverse spiritual groups, with special consideration of those who are marginalized by the dominant culture.

RELIGIOUS/SPIRITUAL TRADITION OR PERSPECTIVE EMPHASIZED BY RESOURCE (Maximum 250 words):
- An ecumenical perspective is emphasized that focuses on the strengths in diverse spiritual groups.
- Students select a group other than their own on which to present a PowerPoint presentation, the aim of which is to engender a strengths-based, culturally competent practice with the group.
- Instructors ensure all major spiritual groups are covered, particularly groups in a given social work program’s catchment area.

CONNECTION TO 2008 EPAS COMPETENCIES (Select most relevant; maximum of 3)
- EP 2.1.2 – Apply social work ethical principles to guide professional practice
- EP 2.1.4 – Engage diversity and difference in practice
- EP 2.1.5 – Advance human rights and social and economic justice

RELEVANCE OF RESOURCE FOR PRACTICE (Maximum 250 words):
This course provides a foundation for effective and ethical practice with diverse spiritual groups.

APPLICABLE PROGRAM LEVEL
Graduate level course; this course can also be used with undergraduates by reducing some of the weekly readings.

CONTENT AREA
This is an elective course. The concepts presented, however, overlaps those presented in diversity and practice courses.

<td>The readings for this course are comprised of articles and book chapters which expose students to diverse perspectives and minimize costs to students. This format also enables instructors to update the weekly sessions with new content as it becomes available and/or include content that is relevant to a particular geographic catchment area. For instance, instructors could remove the weekly module that focuses on “spirituality and the elderly” (i.e., Week 10) and replace it with content that focuses on, for example, spirituality and people with disabilities, if that happens to be a particularly salient population in the catchment area served by a program.</td>

**Question papers**

This course is centered upon student-led discussions. Each week students are responsible to actively participate in class discussions that are based on the readings. Students are required to develop one question paper for each required reading: As implied by the name, this paper asks questions of the reading and provides the basis for the class discussions.

EP 2.1.1; 2.1.2; 2.1.4; 2.1.5; 2.1.7; 2.1.8; 2.1.10

**House of Worship Ethnography**

Students will be responsible for attending and observing—in a neutral, impartial manner—a worship service. This service should be from a spiritual tradition that differs from the student’s personal tradition. Students will be responsible for sharing their ethnographically oriented observations in class. Alternative learning experiences will be created on a case-by-case basis for students who object to attending services outside their own tradition for religious reasons.

EP 2.1.1; 2.1.4
Self-Administered Spiritual Assessment
Students are also required to conduct a self-administered spiritual assessment. In other words, students will administer a spiritual assessment using themselves as the subjects of the assessment. The assessment will be conducted using one of the four diagrammatic comprehensive assessment tools (cf. Class 5). The purpose of this exercise is to sharpen self-awareness and reflection.
EP 2.1.1; 2.1.2; 2.1.4; 2.1.10

Teaching Each Other PowerPoint Presentation
Students will give a 20-minute PowerPoint presentation on a specific population that differs from their own. The purpose of this presentation is to lay the groundwork for strengths-based, culturally competent practice with a particular spiritual group (e.g., Latter Day Saints, specific Native American tribes, Southern Baptists, the Metropolitan Community Church movement, Catholics, Pentecostals, New Age religions, Wicca, Hinduism, Islam, Judaism—and various sub-traditions with these larger traditions, etc.) All presentation topics must be approved by the instructor.
EP 2.1.4

Class participation
Class participation is assessed at three points during the semester.
EP 2.1.1; 2.1.2; 2.1.4; 2.1.7; 2.1.8; 2.1.10

Supplemental assignments
The class also includes supplement assignments to facilitate the adoption of practice competencies. For example, case studies featuring complex ethical dilemmas involving spirituality may be used in the first few weeks (cf. Spirituality and religion in social work practice edited by Scales et al., 2002). Later in the semester, advocacy projects that address violations of people’s basic human rights may be employed (e.g., After developing familiarity with Article 18 of the United Nations’ Universal Declaration of Human Rights, students may be asked to identify a severe violation, contact the relevant governmental authorities, and advocate for individuals’ freedom).
EP 2.1.2; 2.1.5
