

COUNCIL ON SOCIAL WORK EDUCATION

**Commission on Accreditation
Department of Social Work Accreditation**

2015 EPAS | INTERPRETATION GUIDE *(version 2.18.2020)*

This is a companion document to the 2015 EPAS, providing programs with information for navigating the accreditation process and understanding the Commission on Accreditation's (COA) meaning, intent, and interpretation of the EPAS. Interpretations further clarify the COA's expectations for each standard and provides guidance for developing clear and concise written compliance narratives in accreditation documents. As programs continue 2015 EPAS implementation efforts, the COA and the Department of Social Work Accreditation (DOSWA) publishes resources, training dates, and offers year-round consultative services to support accreditation processes.

Disclaimer: *This companion document will be periodically updated by COA and DOSWA. Accreditation information is subject to change. When updates and/or changes occur, the program's primary contact will be notified, and the guide will be posted publicly on the CSWE website. Always confirm that the program is utilizing the most current version of this document when implementing the 2015 EPAS and/or writing an accreditation document by visiting the Accreditation webpages at www.cswe.org. Programs are solely responsible for implementing, demonstrating, and maintaining compliance with the EPAS.*

ACCREDITATION FRAMEWORK

Accreditation is a system for recognizing educational institutions and professional programs affiliated with those institutions as having a level of performance, integrity, and quality that entitles them to the confidence of the educational community and the public they serve.

The purposes of accreditation are:

- quality assurance;
- academic improvement; and
- public accountability.

The process expands beyond quality control. Accreditation is a developmental, reflective, and renewal process by which program stakeholders craft excellent educational experiences to prepare competent social work practitioners. While accreditation is reviewed at periodic intervals, programs are expected to maintain compliance between review cycles.

Accreditation can be an impetus for:

- Innovation
- Experimentation
- Improvement

The Commission on Accreditation (COA) of the Council on Social Work Education (CSWE) is recognized by the Council on Higher Education Accreditation (CHEA) to accredit baccalaureate and master's degree programs in the United States and its territories.

The professional judgments of the COA are based on the Educational Policy and Accreditation Standards (EPAS) developed by the Commission on Educational Policy (COEP) and the COA.

As a CHEA-recognized programmatic accrediting body, the COA, and their partnership with COEP, are responsible for revising the EPAS at periodic intervals not to exceed seven (7) years.

The COA is composed of fellow social work educators, practitioners, and one public member. Commissioners are:

- Volunteers;
- Have background in social work education and practice (or public member);
- Active CSWE members with a minimum of 2-years site visitor experience; and
- Appointed for 3-year terms by the chair of the CSWE board of directors.

The COA convenes three (3) times per year: February, June, and October/November.

Accreditation is a peer-review process, accomplished via dedicated volunteer contributions of COA members and site visitors. The DOSWA staff liaise between the COA and the program, providing services, education and training opportunities, accreditation policies and procedures, and furnishing COA decision letters to programs.

The COA is the sole and final arbiter of compliance. Social work programs are solely responsible for implementing, demonstrating, and maintaining compliance with the 2015 EPAS.

2015 EPAS FRAMEWORK

Program Option Types and Definitions

Program Options: “Various structured pathways to degree completion by which social work programs are delivered including specific methods and locations such as on campus, off campus, and virtual instruction” (2015 EPAS, pg. 22). Program options are **not** plans/calendars of study, such as advanced standing, part-time, 16-months, 2-years, etc.

1. Face-to-Face/Traditional – A majority, 51% or more, of the curriculum is delivered in-person at a primary physical location, such as a main campus.

2. Distance Education – Any curriculum delivery method in which there is a separation, in time or place, between the instructor(s) and student(s). This includes both synchronous (real-time) and asynchronous (self-paced) education models.

2a. Online – A majority, 51% or more, of the curriculum is delivered online.

2b. Branch/Satellite Campus – A majority, 51% or more, of the curriculum is delivered in-person at a location physically detached from the main campus.

2c. Broadcast Site – A majority, 51% or more, of the curriculum is broadcasted via television, audio, telephone, internet radio, livestream, computer-based video, or other modes of technology to students collectively convened in-person at program-established classroom location(s) physically detached from the main campus. Each physical classroom location to which the curriculum is broadcasted is considered a separate program option.

2d. Correspondence – The whole curriculum delivered through mailing materials (videos, texts, assignments, etc.) through the post to students.

The following are **not** identified as a distinct program option:

2e. Learning Site – Sites where only limited portions (50% or less) of the curriculum is offered offsite at a location physically detached from the main campus. A learning site is not considered an additional program option. A learning site should **not** be identified as a distinct program option in accreditation-related documents.

3. Hybrid/Blended – Locations where limited portions (50% or less) of the curriculum are delivered online at a previously established CSWE-approved location (e.g., main campus, branch campus, etc.). This model includes 50% of courses or less delivered fully virtually as well as individual courses delivered partially in-person and partially virtually. A hybrid curriculum design is not considered an additional program option. Rather, it is a face-to-face program option with online course offerings/elements. A hybrid curriculum design should **not** be identified as a distinct program option in accreditation-related documents.

Notable Language changes from 2008 EPAS to the 2015 EPAS

- Foundation practice is now termed *Generalist* practice
- Advanced practice is now termed *Specialized* practice
- Concentration is now termed *Area of Specialized Practice* or *Specialization*
- Practice behavior was simplified to *Behavior*

Holistic Competence – The 2015 EPAS recognizes competence as holistic; this means that the demonstration of competence is informed by the appropriate knowledge, values, skills, and cognitive and affective processes.

Dimensions – Each of the nine social work competencies listed in the EPAS is followed by a paragraph that describes the competency. This description contains dimensions of the competency necessary for learning and developing competence throughout the course of a program. The dimensions are:

- **Knowledge**
- **Values**
- **Skills**
- **Cognitive and Affective Processes***

**This is one (1) dimension and should not be separated into two (2) distinct dimensions for accreditation purposes*

The paragraph description and dimensions as written in the EPAS should be reflected in the generalist social work curriculum. The curriculum also prepares students for the demonstration of competence through the behaviors associated with the competency in *real or simulated practice* situations.

Behaviors – The bullet points under the paragraph description for each competency in the EPAS are a set of behaviors that integrate the dimensions of the competency. Behaviors are the observable components of the competency. Competence in *real or simulated practice* can only be demonstrated by behavior, and behavior cannot be demonstrated without incorporation of the knowledge, values, skills, and cognitive and affective processes associated with the competency. Thus, behaviors in the 2015 EPAS are only required in assessment of competency-based student learning outcomes in *real* (i.e., field education settings) or *simulated practice* (defined on pg. 22 of the 2015 EPAS) situations.

All four (4) competency dimensions are mapped in the explicit curriculum via the curriculum matrix (**AS B2.0.3; AS M2.0.3; and AS M2.1.4**), and a minimum of two (2) are assessed via competency-based student learning outcomes (**AS 4.0.1**).

Understanding Generalist Practice and Specialized Practice

Generalist Practice – is defined as practice with diverse individuals, families, groups, organizations, and communities. Generalist practice is defined in **EP 2.0** and is:

- Grounded in liberal arts and person-in-environment framework
- Uses scientific inquiry, ethical principles, and critical thinking in practice at the micro, mezzo, and macro levels
- Engages diversity in practice and advocates for human rights and social and economic justice
- Recognizes and builds upon the strengths and resiliency of all human beings

For generalist practice, baccalaureate and master's programs are required to implement the nine social work competencies (as described in [the 2015 EPAS](#) pages 7-9) and any additional competencies in their curricula relevant to their context. For generalist practice, programs must use *all behaviors exactly as written in the EPAS* and may choose to develop additional behaviors that represent observable components of each competency that integrate the dimensions.

Specialized Practice – For specialized practice, programs develop their area(s) of specialized practice by creating competency descriptions relevant to the area of specialized practice.

For each area of specialized practice, programs must **extend and enhance** the nine social work competencies and any additional competencies added by the program by describing the dimensions (knowledge, values, skills, and cognitive and affective processes) that comprise each of the competencies. **Extending and enhancing** the generalist competencies means *“providing students with knowledge, values, skills, cognitive and affective processes that are more advanced or more relevant to the area of specialized practice.”*

To **extend and enhance** the competencies programs must:

- Write a competency description for each of the competencies **(AS M2.1.3)**
- Incorporate the four (4) dimensions into the competency description
- Use the competencies and dimensions to design the curriculum
 - Show how the curriculum is built around the knowledge, values, skills, and cognitive and affective processes necessary to develop competence as described for each competency for each area of specialized practice
- Develop behaviors for each competency
 - These behaviors integrate the dimensions so that students can perform/demonstrate competence in *real or simulated* practice situations (e.g., field education settings)
 - Behaviors are the observable components of the competency

For some specializations, for competencies 6-9, programs may **extend and enhance** those systems levels of practice (e.g., individuals, families, groups, organizations, and/or communities) that pertain to that specialization. For example, a program with a clinical specialization may decide that Competency 7: Assessment, only focuses on individuals, families, and groups and not include organizations and communities in their competency description or behaviors. However, for some specializations, the program should address all systems levels. Advanced Generalist is one such example, as are population-specific specializations such as Aging, Child and Youth, Addictions, etc. Please consult with the program's accreditation specialist if you have questions about any specializations in your program related to this option.

In the example below, note that the title of the competency is the same for generalist and specialized practice. Programs should not alter the titles of the competencies beyond modifying the relevant systems levels for competencies 6-9. What is different from generalist practice competencies is the specific knowledge, values, skills, and cognitive and affective processes, as well as behaviors. This reflects an **extension and enhancement** of the competency for a specific specialization. The CSWE [curricular guides](#) are also a resource, many of which feature sample **extended and enhanced** competencies and behaviors.

Example competency description and behaviors for gerontological social work practice:

Competency 1: Demonstrate Ethical and Professional Behavior

Practitioners in aging respect the worth, dignity, and integrity of all older people and advocate for their self-determination, access to services, and ethical application of technology. They recognize ethical issues in practice and distinguish frameworks for decision-making that support older adults' needs and rights. To ensure ethical practice, they use self-reflection, self-regulation, and supervision, consultation, and lifelong learning to address how their attitudes and biases about aging and older adults may influence their personal and professional values and behaviors. Gero social workers recognize the dynamics of self-determination and the continuum of decision-making support. Practitioners in aging serve as leaders to ensure ethical practice with older adults and their care networks.

- *Practitioners in aging with, and on behalf of, older adults and their constituencies:*
- *Demonstrate awareness of aging-related personal and professional values through self-reflection and self-regulation.*
- *Select and incorporate ethical decision-making frameworks that integrate social work values.*
- *Practice in a culturally competent manner that demonstrates recognition of and ability to utilize the principles included in the NASW Code of Ethics, evidence-based knowledge, and relevant legal and policy-related information.*
- *Recognizing social structural social inequities, advocate within the health and social service communities and as members of interprofessional teams on behalf of older adults and their families.*

Curriculum Matrices

Generalist Practice Matrix (B2.0.3 and M2.0.3) – Programs must develop a curriculum map that explains how each competency is taught for development of competence during the course of the curriculum. The map provides the COA with an easy reference to how and where each competency is taught, including all four (4) dimensions per each competency. *Programs map the nine competencies and all four (4) dimensions for each competency across the curriculum.*

At a minimum, the generalist matrix must include:

- The nine social work competencies and any added competencies
- The required course(s) where each competency is demonstrated
- For competencies 6-9, the matrix identifies where individuals, families, groups, organizations, and communities are each reflected in the curriculum
- Specific course content (e.g., readings, modules, assignments, class activities, etc.) from required courses where each competency is demonstrated; select the strongest examples to include in the matrix, not all required courses/content need be mapped
- The dimension(s) (knowledge, values, skills, and cognitive and affective processes) associated with the course content for each competency
- All dimensions for each competency must be addressed somewhere in the curriculum; programs may find that multiple dimensions are covered by one assignment, activity, etc.
- Behaviors are **not** required in the curriculum matrix

Specialized Practice Matrix (M2.1.4) – Master’s programs develop their own competencies that extend and enhance the nine generalist social work competencies and any added competencies. Similar to generalist practice, master’s programs must develop a curriculum map that explains how each competency is taught for development of competence during the course of the curriculum for each area of specialized practice. The map provides the COA with an easy reference to how and where each competency is taught, including all four (4) dimensions per each competency. *Programs map the nine competencies and all four (4) dimensions for each competency across the curriculum.*

At a minimum the matrix must include:

- The nine social work competencies and any added competencies
- The required course(s) where each competency is demonstrated
- For competencies 6-9, the matrix identifies where the specialization-relevant systems levels (e.g., individuals, families, groups, organizations, and/or communities) are reflected in the curriculum
- Specific course content (e.g., readings, modules, assignments, class activities, etc.) from required courses where each competency is demonstrated; select the strongest examples to include in the matrix, not all required courses/content need be mapped
- The dimension(s) (knowledge, values, skills, and cognitive and affective processes) associated with the course content for each competency
- All dimensions for each competency must be addressed somewhere in the curriculum; programs may find that multiple dimensions are covered by one assignment, activity, etc.
- Behaviors are **not** required in the curriculum matrix

Syllabi for Inclusion in Volume 2 – Programs must include uniform syllabi for all courses on the curriculum matrices, both at the generalist and specialized levels. It is not necessary to include syllabi for all required courses in the program, unless the program chooses to include all required courses in a matrix. The COA crosschecks syllabi with courses/content identified on the matrix in order to more fully understand how the program teaches the competencies and dimensions. Beyond requiring submission of uniform syllabi within accreditation documents, the COA does **not** have any requirements regarding the content or formatting of syllabi. Content and formatting of syllabi is completely within the purview of the program.

Assessment

Multi-Dimensional Assessment (AS 4.0.1) – The 2015 EPAS requires programs to engage in multidimensional assessment. As indicated in previous sections, the four (4) dimensions of the competencies are: *knowledge, values, skills, and cognitive and affective processes*. Programs are expected to assess competence by identifying the dimension(s) associated with the competency and measuring students’ performance at that level. Each competency description in the EPAS, or developed by master’s programs for each specialization, contains information that corresponds to the knowledge, values, skills, and cognitive and affective processes necessary to demonstrate competence. At least two (2) dimensions per competency must be assessed. Behaviors are also required in assessment of student competence in *real or simulated practice* situations.

At the baccalaureate level:

- Programs choose their own measures; a minimum of two (2) per competency

- Programs will have at least nine (9) competencies X two (2) measures per competency
- Programs are required to measure at least two (2) dimensions per competency
 - Programs do **not** need to assess every dimension for every competency
- One measure must be in real (i.e., field education settings) or simulated practice (defined on pg. 22 of the 2015 EPAS) situations
 - Programs must use the generalist behaviors exactly as written in the EPAS for the real or simulated practice measure (e.g., field instrument)
- The second measure can assess any dimension(s) (knowledge, values, skills, and/or cognitive and affective processes) and may be done via course-embedded measures, end-of-year exams or assignments, portfolios, comprehensive exit exams, etc.

At the master's level:

- Programs are required to measure at least two (2) dimensions per competency at both the generalist level (does not need to include advanced standing students) and specialized practice levels
 - Generalist-level competency is assessed via the competencies and behaviors as written in the EPAS
 - Specialized-level competency is assessed via the competencies and behaviors developed by the program for *each* area of specialized practice (**AS M2.1.3**)
- Programs choose their own measures; a minimum of two (2) per competency
 - Programs will have at least nine (9) competencies X two (2) measures per competency for generalist practice
 - Programs will have at least nine (9) competencies X two (2) measures per competency for *each* area of specialized practice
- Programs are required to measure at least two (2) dimensions per competency
 - Programs do **not** need to assess every dimension for every competency
- One measure must be in real (i.e., field education settings) or simulated practice (defined on pg. 22 of the 2015 EPAS) situations
 - Programs must use the generalist behaviors exactly as written in the EPAS for the real or simulated practice measure (e.g., field instrument)
 - Programs use their own developed behaviors for their area(s) of specialized practice (programs will have developed both competency descriptions and behaviors for each specialization in **AS M2.1.3**)
- The second measure can assess any dimension(s) (knowledge, values, skills, and/or cognitive and affective processes) and may be done via course-embedded measures, end-of-year exams or assignments, portfolios, comprehensive exit exams, etc.

Assessment of Implicit Curriculum (AS 4.0.5) – This is a new requirement with the 2015 EPAS. Programs will assess one aspect of the implicit curriculum as identified in **EP 4.0**.

- **EP 4.0** states, “*Assessment also involves gathering data regarding the implicit curriculum, which may include but is not limited to an assessment of **diversity, student development, faculty, administrative and governance structure, and resources.** Data from assessment continuously inform and promote change in the explicit curriculum and the implicit curriculum to enhance attainment of Social Work Competencies.*”
- Minimally one area of implicit curriculum is required to be assessed
- Competencies, behaviors, dimensions, coursework, etc. are assessment of the explicit curriculum **not** the implicit curriculum

- Examples of implicit assessment instruments include exit surveys, interviews, focus groups, alumni surveys, culture/climate surveys, strategic planning process, etc.
- Programs assess the implicit curriculum for each program option

Commercial Assessment Instruments and Packages – The COA does not endorse third-party, commercial, standardized, or customized assessment instruments and packages. Although the COA does not prohibit the use of these commercial packages, it is the responsibility of programs to use assessment plans with assessment measures that are compliant with the 2015 EPAS.

NAVIGATING THE ACCREDITATION PROCESS

Preparation

1. Please refer to the [CSWE website/Accreditation tab](#) for all relevant information and resources (policies, procedures, due dates, forms, samples, etc.) to help you successfully navigate the accreditation process.
 - a. The [EPAS Handbook](#) houses the accreditation policies and procedures. The Handbook will be periodically updated. Accreditation staff are frequently contacted about the following sections. Staff suggest a review of the entire Handbook with specific attention to the following sections:
 1. 1.2.2. Postponement of Reaffirmation Review
 2. 1.2.3. Agenda Adjustments
 3. 1.2.4. Program Changes
 4. 1.2.5. Waivers to Accreditation Standards
 5. 1.2.11. Document Submission Policy
 6. 1.2.13. Use of Consultants
 - b. The [Directory of Accredited Programs](#) details accreditation history, next accreditation review date, and current contact info for all accredited and candidate programs.
 - c. COA [decisions](#) are posted publicly on the CSWE website 30-days after each meeting concludes.
 - d. Accreditation [PowerPoint presentations](#) covering a variety of high-demand topics are available for download.
2. Accreditation processes are self-managed.
 - a. Timetables ([select Timetables](#)) for each agenda date outline what is due, to whom, and when it must be submitted. Add these dates to your calendars, as programs will **not** receive prompts nor reminders.
 - b. The program's agenda date is published in the [Directory of Accredited Programs](#) as the next accreditation review date.
 - c. The timetable specifies the fees schedule ([select Fees](#)). For more information regarding fees or invoicing, please contact feesaccred@cswe.org.
 - d. Please note, accreditation specialists do **not** handle accreditation, membership, or training fees or invoices.
3. The DOSWA offers Candidacy and Reaffirmation at-cost trainings and workshops throughout the year on a first-come, first-served basis.
 - a. Learn more about [trainings](#) and register online. For more information regarding trainings, please contact accredworkshop@cswe.org.
 - b. Please note, accreditation specialists do **not** handle training registration, fees, or logistics.

Writing an Accreditation Document

3. Policy 1.2.11. *Document Submission Policy* in the [EPAS Handbook](#) provides formatting and submission requirements for each type of accreditation document.
 - a. Programs with multiple program options are expected to explicitly address each program option in response *each* accreditation standard.
 1. A separately labeled response must be provided for each program option. If the program's response to the standard is the same across all program options, the program must explicitly state this under the relevant

- accreditation standard. Be cognizant of the standards in which the program's response is likely to differ due to a distinct learning environment at separate location(s) or via delivery method(s).
2. Program options are defined on pg. 21 of the 2015 EPAS as: *"Various structured pathways to degree completion by which social work programs are delivered including specific methods and locations such as on campus, off campus, and virtual instruction."* This includes branch/satellite campuses, online delivery method, etc.
 3. Program options are **not** plans/calendars of study, such as advanced standing, part-time, 16-months, 2-years, etc.
- b. The COA is paperless! Zero physical copies of accreditation documents are required. E-copies only will be accepted.
 - c. Submit all documents in Microsoft Word or searchable PDF Format (unless otherwise noted in policy 1.2.11). Scanned documents are **not** accepted.
 - d. **Appendices:** Information and relevant documentation for each standard must be included directly in response to that standard (not as appendices). This includes all forms, matrices, and tables. Commissioners will not search through the document for requested information.
 - e. Submissions are accepted by email or by mail via USB flash drive. Documents sent via the cloud, CD, SD, or DVD will **not** be accepted.
4. Most common types of accreditation documents include:
 - a. **Self-study:** (Reaffirmation) A formal process during which the educational program critically examines its structure, content, strengths, areas for improvement, effectiveness, and enhancement plans in alignment with the EPAS. The self-study is the mechanism for documenting compliance with the accreditation standards every eight (8) years.
 - b. **Benchmark:** (Candidacy) A formal process during which a new educational program documents compliance with a portion of accreditation standards over a 3-year period leading to a 4-year initial accreditation period.
 - c. **Visit Report:** Composed by a qualified and trained visitor, this report documents the clarifying information provided to the visitor via onsite discussion and dialogue with the program. Visitors are under the jurisdiction of the COA and do **not** determine compliance. There are two (2) types of visitors:
 1. Site Visitor = Reaffirmation
 2. Commission Visitor = Candidacy
 - d. **Program Response:** A formal written response to the visitor's report documenting compliance with all items raised in the Letter of Instruction and Site Visit Report (Reaffirmation) or Commission Visit Report (Candidacy). This is the program's final opportunity to demonstrate and document compliance in their own voice prior to receiving a decision from the COA.
 - e. **Progress Report:** A formal written response to all outstanding concerns for which the program has not clearly demonstrated compliance during an accreditation review process.
 - f. **Restoration Report:** A formal written response to all outstanding noncompliance issues for which the program did not demonstrate compliance during an accreditation review process.
 - g. **Substantive Change Proposal:** A proposal documenting the program's compliance plan when preparing to offer a new program option in between accreditation review cycles. Policy 1.2.4. *Program Changes* in the [EPAS](#)

[Handbook](#) provides detailed policies and procedures for submitting a *Substantive change Proposal*.

5. Self-studies and Benchmark documents comprise of three (3) volumes and one (1) review brief:
 - a. Volume 1 = narrative response to every accreditation standard, including supporting documentation, compiled into one (1) continuous document
 1. *Optional Tool:* [Self-study Volume 1 Template](#)
 - b. Volume 2 = course syllabi for required courses identified on the curriculum matrix compiled into one (1) continuous document
 - c. Volume 3 = student handbook and field manual compiled into one (1) continuous document
 - d. Review Brief = rubric for evaluating compliance used by the COA readers
6. Write to the accreditation standard **not** the educational policies
 - a. Educational policies inform the program's response to the accreditation standards
 1. Educational policies are not to be altered nor need to be copied/pasted into accreditation documents
 - b. **B** – indicates standards applicable to baccalaureate programs only
 - c. **M** – indicates standards applicable to master's programs only
7. Each separately accredited baccalaureate and master's program are individually evaluated for compliance by the COA
8. As you write a self-study (reaffirmation) or benchmark (candidacy), use the corresponding [Review Brief](#) to ensure all compliance requirements for each standard are addressed. The review brief is the rubric commissioners use to evaluate compliance.
 - a. Use the compliance statements and subheadings to clearly address *each component* of the standard.
 - b. Explicitly address each program option in response to *each* standard.
9. Required forms ([select Self-Study Forms](#)) must be submitted with your self-study or benchmark in response to the accreditation standards.
10. **SAMPLE** curriculum matrices and assessment plans ([select Resources](#)) are available which will be helpful in the preparation of the self-study or benchmark document.
11. The self-study content commonly reflects the full academic year prior to the submission of the document. This is typically referred to as the "year-of-record" and is flexible based upon the program's document due date.
 - a. The self-study or benchmark is your opportunity to tell the program's story to the COA!
 - b. Programs are the experts on their educational programs and are tasked with candidly, clearly, and concisely articulating the reality of how the program has implemented and compiles with the standards.
 - c. Commissioners appreciate clear and concise narrative. Information provided should *always* directly relate to the standard to which the program is responding. Do not include information beyond what the standard is requesting.
 - d. Since commissioners read for minimum compliance with the EPAS, verbose and elaborate writing styles are discouraged.
 - e. COA cannot make any assumptions; describe how the programs complies with *each component* of the standard.
 - f. Commissioners trust that programs are disclosing complete and accurate information.

12. If major changes are planned or experienced during your reaffirmation cycle, it is important to contact the program's accreditation specialist to discuss the change and how to report it.
 - a. Per policy 1.2.4. *Program Changes* in the [EPAS Handbook](#): "*The program should not implement any changes that require a Substantive Change Proposal during the candidacy or reaffirmation process. The candidacy process begins with the submission of the benchmark 1 document and ends with an initial accreditation decision. The reaffirmation process begins with the submission of the self-study and ends with a reaffirmation decision.*"
13. The DOSWA encourages all administrators, full-time and part-time faculty, staff, students, field instructors, board members and other relevant program stakeholders to understand and actively participate in the accreditation process. Continuous accreditation efforts, including periodic reaffirmation reviews, are owned by and affect the entire program. Thus, team-based approaches are highly recommended.
 - a. *Optional Tool*: [Self-Study/Benchmark Team Approach Grid](#)

Understanding the COA Review Process

1. Accreditation reviews occur at the three (3) COA meetings annually: February, June, and October/November
2. Each accreditation specialist collaborates with a workgroup of five (5) commissioners (e.g., COA readers)
3. The specialist assigns each document to two (2) COA readers
 - o COA readers do **not** review materials from previous cycles or previously submitted materials (unless otherwise specified in policy)
4. Various types of documents may also be assigned by the COA to the specialist for review (e.g., progress reports, substantive changes, etc.)
5. The COA readers complete independent reviews
6. The reviews are sent to the specialist, compiled, and sent back to the readers for reconciling the decision type and each citation
7. Any decisions or citations where agreement is not met, are brought to the 5-person workgroup for resolution during the meeting
8. The workgroup finalizes all decision types and citations
9. All decisions are voted on and ratified by the 25-person COA
10. Programs are informed by the specialist of the decision, specifics, rationale, and any next steps after the meeting concludes
 - o For those under review for a decision, a courtesy email notification is sent within 1-2 weeks
 - o For those under review for a Letter of Instruction (LOI), a courtesy draft LOI is sent within 2-3 weeks or later once site visit selection process is complete
 - o All final/official signed COA letters are sent 30-days after the meeting per policy 1.1.10. *COA Decision Making* in the [EPAS Handbook](#)

DOSWA Consultation Services

While accreditation staff may provide consultative services regarding the accreditation process and EPAS, the COA has sole and complete authority as the final arbiter of compliance with the EPAS. The program is solely responsible for implementing, demonstrating, and maintaining compliance with the EPAS.

Each accredited program is assigned one (1) accreditation specialist with whom they may collaborate. Accreditation specialists:

- Provide accurate accreditation-related information and resources to programs and the public
- Provide guidance in navigating the reaffirmation or candidacy process
- Assist in understanding accreditation policies and procedures
- Conduct trainings and offer educational opportunities
- Communicate with the program's designated primary contact
- Provide customized consultation on the accreditation process and EPAS via phone, email, video, or in-person at CSWE's Annual Program Meeting (APM) and the Baccalaureate Program Directors (BPD) annual conference
 - YouCanBookMe scheduling app linked in each specialist's email signature
- Does **not** determine compliance/noncompliance

Always confirm accuracy of accreditation-related information with the program's accreditation specialist!

Communications with DOSWA & COA

Per policy 1.2.7. *Primary Contact, Information Sharing, and Release of COA Decision Letter* in the [EPAS Handbook](#), "Each accredited program selects one (1) primary contact. To streamline communication, the primary contact's responsibility is to represent the program in all exchanges with CSWE and the public." Review the policy to become familiar with the primary contact's scope of responsibilities and procedures for updating the primary contact.

Periodic accreditation updates are emailed to program's primary contact after COA meetings. An *Accreditation News Archive* is also publicly available on the [accreditation webpages](#) CSWE website.

Changes Between Accreditation Review Cycles

Policy 1.2.4. *Program Changes* in the [EPAS Handbook](#) provides guidance regarding which changes require notification or formal proposals to the COA or accreditation department. Changes that do not require reporting are also addressed.

STANDARD-BY-STANDARD INTERPRETATIONS & TIPS

Educational Policy 1.0—Program Mission and Goals

The mission and goals of each social work program address the profession’s purpose, are grounded in core professional values, and are informed by program context.

Values

Service, social justice, the dignity and worth of the person, the importance of human relationships, integrity, competence, human rights, and scientific inquiry are among the core values of social work. These values underpin the explicit and implicit curriculum and frame the profession’s commitment to respect for all people and the quest for social and economic justice.

Program Context

Context encompasses the mission of the institution in which the program is located, and the needs and opportunities associated with the setting and program options. Programs are further influenced by their practice communities, which are informed by their historical, political, economic, environmental, social, cultural, demographic, local, regional, and global contexts and by the ways they elect to engage these factors. Additional factors include new knowledge, technology, and ideas that may have a bearing on contemporary and future social work education, practice, and research.

The social work program’s mission and goals reflect the profession’s purpose and values and the program’s context.

Accreditation Standard 1.0—Mission and Goals

STANDARD	COMPLIANCE STATEMENTS	COA INTERPRETATIONS & TIPS	DRAFT/COMPLIANCE <i>This column is applicable to candidacy programs only!</i>
1.0.1: The program submits its mission statement and explains how it is consistent with the profession’s purpose and values.	Narrative provides the program’s mission statement. Narrative explains how the program’s mission statement is consistent with the profession’s purpose and values.	<ul style="list-style-type: none"> AS 1.0 focuses less upon curricular offerings and more on the program’s mission statement. The mission statement is specific to program-level (master’s or baccalaureate) rather than school/department-level. Explain how there is consistency with the program’s mission statement, profession’s purpose, and values (profession’s purpose described on pg. 5 of EPAS; values described in EP 1.0). The linkages should be clear and explicit. 	COMPLIANCE AT BENCHMARK 1 and 3

	<p>The narrative should discuss any ways in which the program option mission differs from the on-campus program (if applicable).</p>	<ul style="list-style-type: none"> • Discuss each component of the profession’s purpose and values as written in the EP 1.0 using subheadings. • It can be helpful to think of specific components of the program mission and tie those to specific components of both the profession’s purpose and values. • Consider including a table identifying the components of the program’s mission, profession’s purpose, and values to visually demonstrate the relationship. • Tables help clarify consistency and visually separate text, however, a narrative discussion of <i>how</i> the mission is consistent with each component should be included. • In addition to highlighting areas of consistency and overlap, it will be necessary to provide a discussion on <i>how</i> these areas are consistent with one another. • It can be helpful to bold, underline, italicize, etc. the components of the mission that align with components of the purpose and values to highlight language consistencies. • Use subheadings to clearly address each component of the standard. • Each program option should be explicitly addressed in response to each standard. 	
<p>1.0.2: The program explains how its mission is consistent with the institutional mission and the program’s context across all program options.</p>	<p>Narrative explains how the program’s mission is consistent with the institutional mission.</p> <p>Narrative explains how the program’s mission is consistent with the program’s context across all program options.</p> <p>The narrative should discuss any ways in which the program option mission differs from the on-campus program (if applicable).</p>	<ul style="list-style-type: none"> • AS 1.0 focuses less upon curricular offerings and more on the program’s and host institution’s mission statement. • The program’s mission is consistent with the institutional mission and emphasizes the program’s context (context defined in EP 1.0). The linkages should be clear and explicit. • Discuss the mission statement’s consistency, rather than programmatic components’ consistency. • Context can emerge from the institution’s orientation (faith-based, for example) or the geography (urban, rural, and regional) or other elements unique to the program such as “global” framework. • The context component is important in this standard, as programs will develop the discussion around <i>how</i> the program’s mission is consistent with this context. 	<p>COMPLIANCE AT BENCHMARK 1 and 3</p>

		<ul style="list-style-type: none"> • Are there certain contextual aspects, such as region-specific features or religious affiliation, that have influenced the program's mission? • For example, does the program equip students to work with a particular population based on your context? Is your student population commuter, non-traditional, first generation, etc.? • What elements of the program's context will fully allow the COA to understand your program's story? What contextual elements influence your program? • Consider including a table identifying the components of the program's mission, institution's mission, and program's context to visually demonstrate the relationship. • Tables help clarify consistency and visually separate text, however, a discussion of <i>how</i> the program's mission is consistent with the institutional mission should be included. • It can be helpful to bold, underline, italicize, etc. the components of the program's mission that aligns with components of the institutional mission and program's context to highlight language consistencies. • Use subheadings to clearly address each component of the standard. • Each program option should be explicitly addressed in response to each standard. 	
<p>1.0.3: The program identifies its goals and demonstrates how they are derived from the program's mission.</p>	<p>Narrative identifies the program's goals.</p> <p>Narrative demonstrates how the program's goals are derived from the program's mission.</p> <p>The narrative should discuss goals for all program options (if different from one option to the other) and demonstrate how they are derived from the program's mission.</p>	<ul style="list-style-type: none"> • AS 1.0 focuses less upon curricular offerings and more on the program's mission statement. • Goals represent the elements or component parts of the mission. • There should be a brief narrative describing <i>how</i> the goals are derived from the mission with specific linkages between the two. • Discuss how each goal is individually derived from the program's mission. • Goals are not identical to the nine social work competencies (EPAS pgs. 7-9). • Goals are specific to program-level (master's or baccalaureate) rather than school/department-level. • There is no required number of goals. 	<p>COMPLIANCE AT BENCHMARK 1 and 3</p>

		<ul style="list-style-type: none"> • The program is typically the subject of the goal (i.e., the program will...). • Goals may focus upon important elements of the program’s operations and impact such as students, competency-based education, unique educational programming, community relationships, research, faculty development, alumni engagement, etc. • Consider including a table identifying the components of the program’s mission and goals to visually demonstrate the relationship. • Tables help clarify alignment and visually separate text, however, a discussion of <i>how</i> the program goals are derived from the mission should be included. • It can be helpful to bold, underline, italicize, etc. the components of the mission that align with components of the goals to highlight language consistencies. • Use subheadings to clearly address each component of the standard. • Each program option should be explicitly addressed in response to each standard. 	
--	--	---	--

Explicit Curriculum

The explicit curriculum constitutes the program's formal educational structure and includes the courses and field education used for each of its program options. Social work education is grounded in the liberal arts, which provide the intellectual basis for the professional curriculum and inform its design. Using a competency-based education framework, the explicit curriculum prepares students for professional practice at the baccalaureate and master's levels. Baccalaureate programs prepare students for generalist practice. Master's programs prepare students for generalist practice and specialized practice. The explicit curriculum, including field education, may include forms of technology as a component of the curriculum.

Educational Policy 2.0—Generalist Practice

Generalist practice is grounded in the liberal arts and the person-in-environment framework. To promote human and social well-being, generalist practitioners use a range of prevention and intervention methods in their practice with diverse individuals, families, groups, organizations, and communities based on scientific inquiry and best practices. The generalist practitioner identifies with the social work profession and applies ethical principles and critical thinking in practice at the micro, mezzo, and macro levels. Generalist practitioners engage diversity in their practice and advocate for human rights and social and economic justice. They recognize, support, and build on the strengths and resiliency of all human beings. They engage in research-informed practice and are proactive in responding to the impact of context on professional practice.

The baccalaureate program in social work prepares students for generalist practice. The descriptions of the nine Social Work Competencies presented in the **EPAS** identify the knowledge, values, skills, cognitive and affective processes, and behaviors associated with competence at the generalist level of practice.

The nine Social Work Competencies are listed in the **EPAS** on pp. 7-9. Programs may add competencies that are consistent with their mission and goals and respond to their context. The descriptions of the nine Social Work Competencies presented in the **EPAS** identify the knowledge, values, skills, cognitive and affective processes, and behaviors associated with competence at the generalist level of practice.

Competency 1: Demonstrate Ethical and Professional Behavior

Competency 2: Engage Diversity and Difference in Practice

Competency 3: Advance Human Rights and Social, Economic, and Environmental Justice

Competency 4: Engage In Practice-informed Research and Research-informed Practice

Competency 5: Engage in Policy Practice

Competency 6: Engage with Individuals, Families, Groups, Organizations, and Communities

Competency 7: Assess Individuals, Families, Groups, Organizations, and Communities

Competency 8: Intervene with Individuals, Families, Groups, Organizations, and Communities

Competency 9: Evaluate Practice with Individuals, Families, Groups, Organizations, and Communities

Accreditation Standard B2.0—Generalist Practice

STANDARD	COMPLIANCE STATEMENT	COA INTERPRETATIONS & TIPS	DRAFT/COMPLIANCE <i>This column is applicable to candidacy programs only!</i>

--	---	---	--

- The curriculum matrix purpose = the strongest teaching/learning touchpoints (via specific course content) for each competency and dimension.
- The assessment plan purpose = the two (2) or more measures used to assess competency-based student learning outcomes.
- Required courses, or content all students are receiving, should be included in the matrix.
 - Not every course must appear on the matrix, only required courses with content strongly exemplifying each competency/dimension required for all students.
 - Elective courses are **not** included on the matrix.
 - It is helpful to feature a spread of required courses from across the generalist curriculum.
- In the matrix, include a *brief* description of the course content, explaining what the specific content entails rather than only listing the content title.
- Competencies 6-9 should be delineated by systems levels (e.g., individuals, families, groups, organizations, and communities).
- A program may choose to add one (1) or more competencies unique to the program's context. If the program elects to add additional competencies, they should be included in the matrix.
- All **four (4) dimensions** should be mapped to each competency, including any competencies added by the program.
- Include page numbers in matrix, referring readers to Volume 2 (syllabi), and continuously paginate Volume 2 so that COA readers may easily crosscheck the specific course content with the syllabi.
 - Title the specific course content consistently between the matrix and syllabi.
- Use labels to clearly address each component of the compliance statement within the matrix.
- Each program option should be explicitly addressed in response to each standard.

Educational Policy M2.1—Specialized Practice

Specialized practice builds on generalist practice as described in **EP 2.0**, adapting and extending the Social Work Competencies for practice with a specific population, problem area, method of intervention, perspective or approach to practice. Specialized practice augments and extends social work knowledge, values, and skills to engage, assess, intervene, and evaluate within an area of specialization. Specialized practitioners advocate with and on behalf of clients and constituencies in their area of specialized practice. Specialized practitioners synthesize and employ a broad range of interdisciplinary and multidisciplinary knowledge and skills based on scientific inquiry and best practices, and consistent with social work values. Specialized practitioners engage in and conduct research to inform and improve practice, policy, and service delivery.

The master's program in social work prepares students for specialized practice. Programs identify the specialized knowledge, values, skills, cognitive and affective processes, and behaviors that extend and enhance the nine Social Work Competencies and prepare students for practice in the area of specialization.

Accreditation Standard M2.1— Specialized Practice

STANDARD	COMPLIANCE STATEMENT	COA INTERPRETATIONS & TIPS	DRAFT/COMPLIANCE <i>This column is applicable to candidacy programs only!</i>
<p>M2.1.1: The program identifies its area(s) of specialized practice (EP M2.1) and demonstrates how it builds on generalist practice.</p>	<p>Narrative identifies the program's area(s) of specialized practice across all program options.</p> <p>Narrative demonstrates how the program's areas of specialized practice build on generalist practice across all program options.</p>	<ul style="list-style-type: none"> • Specialized practice prepares students for practice roles with a specific population, problem area, method of intervention, perspective or approach to practice (EP M2.1). • List the name of each specialization (e.g., advanced generalist, clinical, policy, etc.), and discuss <i>how</i> each area of specialized practice builds upon the elements of generalist practice (as defined in EP 2.0). • Discuss <i>how</i> each specialization builds upon one or more of the following systems levels: individuals, families, groups, organizations, and/or communities. • Consider including a table for each specialization identifying how the specialization aligns with components of the definition of generalist practice to visually demonstrate the relationship. • Tables help clarify consistency and visually separate text, however, a discussion of <i>how</i> each area of specialized practice is builds upon the generalist practice definition in EP 2.0 should be included. 	<p>COMPLIANCE AT BENCHMARK 1 and 3</p>

		<ul style="list-style-type: none"> • It can be helpful to bold, underline, italicize, etc. the elements of the specialization that build upon the elements of the generalist practice definition in EP 2.0 to highlight language consistencies. • Though “area of specialized practice” is an umbrella term, a program may use language such as specialization, concentration, track, focus, area, etc. as a label. • Use subheadings to clearly address each component of the standard. • Each program option should be explicitly addressed in response to each standard. 	
<p>M2.1.2: The program provides a rationale for its formal curriculum design for specialized practice demonstrating how the design is used to develop a coherent and integrated curriculum for both classroom and field.</p>	<p>Narrative provides a rationale for the program’s formal curriculum design for specialized practice across all program options.</p> <p>Narrative explains how the program’s curriculum design for specialized practice is used to develop a coherent and integrated curriculum for both classroom and field across all program options.</p>	<ul style="list-style-type: none"> • This is a discussion of the concepts, theories, pedagogical ideas, and precepts that inform the formal curriculum design for <i>each</i> specialization (e.g., plan of study). • What content is engaged before what? What content is engaged concurrently? Why? How is course content integrated with field? Is there a developmental order to the curriculum? Why does the configuration of your courses make coherent sense overall? • Is there a logical progression through the curriculum? How does a student experience the curriculum from admission through graduation? • For example, if a program representative were to walk a prospective student through the specialized level of the program what would that look like and <u>why</u>? • It is helpful to include a visual semester-by-semester plan of study, typically a table/chart provided by the registrar’s office. • Narrative should focus on required social work courses (i.e., content all students receive) but may include summary information regarding electives, general education requirements, certificate programs, dual degree programs, and other optional curricular offerings. • Rather than provide a list of courses and descriptions (e.g., course catalog), programs are expected to provide a narrative describing <u>how</u> the courses influence and build upon each other, as opposed to discussing each course individually. 	<p>COMPLIANCE AT BENCHMARK 1 and 3</p>

		<ul style="list-style-type: none"> • Programs may consider sectioning the narrative by semester or year depending upon the curriculum design. • Programs determine the formal/official title of the degree awarded. • Use subheadings to clearly address each component of the standard. • Each program option should be explicitly addressed in response to each standard. 	
<p>M2.1.3: The program describes how its area(s) of specialized practice extend and enhance the nine Social Work Competencies (and any additional competencies developed by the program) to prepare students for practice in the area(s) of specialization.</p>	<p>Narrative describes how each of the program’s areas of specialization extend and enhance each of the nine competencies (and any additional competencies developed by the program) to prepare students for practice in the area(s) of specialization across all program options.</p>	<ul style="list-style-type: none"> • Specialized practice extends and enhances the nine required competencies (and any other competencies added by the program) beyond generalist practice as defined in EP 2.0. • Extending and enhancing the nine required generalist competencies (and any other competencies added by the program) means providing students with knowledge, values, skills, and cognitive & affective processes that are advanced or more relevant to the area of specialized practice. • Programs can create additional competencies specific to an area of specialized practice that are only covered at the specialized level. • Programs extend and enhance the nine social work competencies (and any other competencies added by the program) for its specializations by developing a descriptive paragraph incorporating the four (4) dimensions (knowledge, values, skills, and cognitive & affective processes) that comprise each competency and corresponding behaviors. • The descriptive paragraph under each competency title, informs the content that should be reflected in the specialized curriculum and represents the underlying content and processes that informs the bulleted behaviors. Behaviors are the observable components of the competency which operationalize the competency in <i>real or practice situations</i> (e.g., field education settings). <ul style="list-style-type: none"> ○ A minimum of one (1) behavior should be developed per competency. There is no maximum number of expected behaviors per competency. 	<p align="center">COMPLIANCE AT BENCHMARK 1 and 3</p>

		<ul style="list-style-type: none"> • The accreditation department has developed SAMPLES of extended and enhanced competencies and behaviors. The CSWE website houses the samples. Programs may also refer to the curricular guides on the CSWE website for SAMPLE extended and enhanced competencies and behaviors. • Extending and enhancing goes beyond adding the specialization name to each competency or behavior. • Each competency should include the title, descriptive paragraph incorporating the four (4) dimensions, and bulleted behaviors specific to the area of specialized practice. <ul style="list-style-type: none"> ○ For competencies 1-5, the competency title will remain the same as the nine generalist level competences, however, the competency description (paragraph) and bulleted behaviors will be re-written by the program. ○ For competencies 6-9, the competency title may change depending upon which relevant systems levels (e.g., individuals, families, groups, organizations, and/or communities) the program chooses to focus on for each specialization. The extended and enhanced systems levels should match what the program identified in response to AS M2.1.1. • The advanced generalist and population-specific specializations and should extend enhance all five (5) systems levels. • Use subheadings to clearly address each component of the standard. • Each program option should be explicitly addressed in response to each standard. 	
<p>M2.1.4: For each area of specialized practice, the program provides a matrix that illustrates how its curriculum content implements the nine required social work competencies and any</p>	<p>Program provides a matrix illustrating how the program’s specialized practice curriculum content implements the nine required social work competencies and any additional competencies</p>	<ul style="list-style-type: none"> • Programs develop and write the specialized social work competencies and corresponding behaviors for each area of specialized practice. • The descriptive paragraph under each competency title, informs the content that should be reflected in the specialized curriculum and represents the underlying content and processes that informs the bulleted behaviors. Behaviors are the observable components of the competency which operationalize the 	<p>DRAFT AT BENCHMARK 1 (Including Syllabi in Volume 2)</p> <p>COMPLIANCE AT BENCHMARK 2 and 3</p>

<p>additional competencies added by the program.</p>	<p>added by the program across all program options.</p>	<p>competency in <i>real or practice situations</i> (e.g., field education settings).</p> <ul style="list-style-type: none"> • Each specialized matrix maps specific specialized curriculum course content to the nine social work competencies (and any other competencies added by the program) as well as the four (4) dimensions (knowledge, values, skills, and cognitive & affective processes) of each competency. • At a minimum, each specialized practice matrix should include: <ul style="list-style-type: none"> ○ the nine social work competencies (and any other competencies added by the program); ○ the course call number and full course title where each competency is implemented; ○ specific course content (e.g., readings, modules, assignments, in-class activities, etc.) where each competency is implemented; and ○ the four (4) dimensions (knowledge, values, skills, and cognitive & affective processes) associated with the course content for each competency. • The matrix should be in a table format. • The accreditation department has developed a SAMPLE matrix. The CSWE website houses the sample matrix. • The intent and purpose of the curriculum matrix is different than the assessment plan matrix. The curriculum matrix is snapshot featuring specific required course content strongly relating to each competency/dimension which all students are learning in the classroom. The assessment plan matrix details how the program is capturing competency-based student learning outcomes. These matrices do not need to match even if the program is using a course-embedded measure assessment model. • The curriculum matrix is different than the assessment plan. The matrix is a snapshot of the strongest examples where the program implements all four (4) dimensions of each competency through specific course content. This is not where/how the program is assessing student learning outcomes. 	<p>(Including Syllabi in Volume 2)</p>
--	---	---	---

		<ul style="list-style-type: none"> ○ The curriculum matrix purpose = the strongest teaching/learning touchpoints (via specific course content) for each competency and dimension. ○ The assessment plan purpose = the two (2) or more measures used to assess competency-based student learning outcomes. ● Required courses, or content all students are receiving, should be included in the matrix. <ul style="list-style-type: none"> ○ Not every course must appear on the matrix, only required courses with content strongly exemplifying each competency/dimension required for all specialization students. ○ Elective courses are not included on the matrix. ○ It is helpful to feature a spread of required courses from across the specialized curriculum. ● In the matrix, include a <i>brief</i> description of the course content, explaining what the specific content entails rather than only listing the content title. ● Competencies 6-9 should be delineated by systems levels (e.g., individuals, families, groups, organizations, and/or communities) relevant to the specialization. ● A program may choose to add one (1) or more competencies unique to the program's context. If the program elects to add additional competencies, they should be included in the matrix. ● All four (4) dimensions should be mapped to <u>each</u> competency, including any competencies added by the program. ● Include page numbers in matrix, referring readers to Volume 2 (syllabi), and continuously paginate Volume 2 so that COA readers may easily crosscheck the specific course content with the syllabi. <ul style="list-style-type: none"> ○ Title the specific course content consistently between the matrix and syllabi. ● Use labels to clearly address each component of the compliance statement within the matrix. ● Each program option should be explicitly addressed in response to each standard.

Educational Policy 2.2—Signature Pedagogy: Field Education

Signature pedagogies are elements of instruction and of socialization that teach future practitioners the fundamental dimensions of professional work in their discipline—to think, to perform, and to act ethically and with integrity. Field education is the signature pedagogy for social work. The intent of field education is to integrate the theoretical and conceptual contribution of the classroom with the practical world of the practice setting. It is a basic precept of social work education that the two interrelated components of curriculum—classroom and field—are of equal importance within the curriculum, and each contributes to the development of the requisite competencies of professional practice. Field education is systematically designed, supervised, coordinated, and evaluated based on criteria by which students demonstrate the Social Work Competencies. Field education may integrate forms of technology as a component of the program.

In such cases, student field assignments may not be the same as employment duties. • Include relevant policies from the program's field manual. • Use subheadings to clearly address each component of the standard. • Each program option should be explicitly addressed in response to each standard. 	
---	--	---	--

Implicit Curriculum

The implicit curriculum refers to the learning environment in which the explicit curriculum is presented. It is composed of the following elements: the program’s commitment to diversity; admissions policies and procedures; advisement, retention, and termination policies; student participation in governance; faculty; administrative structure; and resources. The implicit curriculum is manifested through policies that are fair and transparent in substance and implementation, the qualifications of the faculty, and the adequacy and fair distribution of resources. The culture of human interchange; the spirit of inquiry; the support for difference and diversity; and the values and priorities in the educational environment, including the field setting, inform the student’s learning and development. The implicit curriculum is as important as the explicit curriculum in shaping the professional character and competence of the program’s graduates. Heightened awareness of the importance of the implicit curriculum promotes an educational culture that is congruent with the values of the profession and the mission, goals, and context of the program.

Educational Policy 3.0—Diversity

The program’s expectation for diversity is reflected in its learning environment, which provides the context through which students learn about differences, to value and respect diversity, and develop a commitment to cultural humility. The dimensions of diversity are understood as the intersectionality of multiple factors including but not limited to age, class, color, culture, disability and ability, ethnicity, gender, gender identity and expression, immigration status, marital status, political ideology, race, religion/ spirituality, sex, sexual orientation, and tribal sovereign status. The learning environment consists of the program’s institutional setting; selection of field education settings and their clientele; composition of program advisory or field committees; educational and social resources; resource allocation; program leadership; speaker series, seminars, and special programs; support groups; research and other initiatives; and the demographic make-up of its faculty, staff, and student body.

Accreditation Standard 3.0—Diversity

STANDARD	COMPLIANCE STATEMENT	COA INTERPRETATIONS & TIPS	DRAFT/COMPLIANCE <i>This column is applicable to candidacy programs only!</i>
3.0.1: The program describes the specific and continuous efforts it makes to provide a learning environment that models affirmation and respect for diversity and difference.	Narrative describes the specific and continuous efforts the program makes to provide a learning environment that models affirmation and respect for diversity and difference across all program options.	<ul style="list-style-type: none"> The curriculum is a component of the learning environment; however, given that this standard falls within the implicit curriculum the emphasis is upon activities and efforts <i>beyond</i> the classroom that maximize attention to diversity and difference throughout the entire program learning environment. The focus of this standard is on how every component of program operations, <i>outside</i> of formal class and field offerings, reflect attention and commitment to diversity. Per EP 3.0, “<i>The learning environment consists of the program’s institutional setting; selection of field</i> 	DRAFT AT BENCHMARK 1 COMPLIANCE AT BENCHMARK 2 and 3

		<p><i>education settings and their clientele; composition of program advisory or field committees; educational and social resources; resource allocation; program leadership; speaker series, seminars, and special programs; support groups; research and other initiatives; and the demographic make-up of its faculty, staff, and student body.”</i></p> <ul style="list-style-type: none"> • Include examples of the specific efforts the program makes to provide a learning environment that models affirmation and respect for diversity and difference. For example, extracurricular programs, events, conferences, speaker series, initiatives, student organization projects, culture/climate work, scholarship programs, community partnerships, etc. • The program may discuss major contextual features unique to the program’s location. • The program may discuss a variety of dimensions of diversity and their intersectionality per EP 3.0, however, programs do not need to discuss every dimension of diversity. • The program may discuss collaborations with the broader institution and/or other departments; however, the program must explicitly explain their active role in those efforts. • The focus of this standard is on the efforts specific to the program-level (i.e., baccalaureate or master’s) rather than the school/department-level. • There is less emphasis on demographics and statistics of faculty, administration, and students. Rather the focus is upon diversity and difference efforts in the implicit curriculum (<i>outside</i> of the classroom) that contribute to and shape the learning environment. • Include relevant policies. • Use subheadings to clearly address each component of the standard. • Each program option should be explicitly addressed in response to each standard. 	
<p>3.0.2: The program explains how these efforts provide a supportive and</p>	<p>Narrative explains how these efforts provide a supportive and inclusive</p>	<ul style="list-style-type: none"> • This discussion should demonstrate that attention to diversity and difference is a high priority. 	<p>DRAFT AT BENCHMARK 1</p> <p>COMPLIANCE AT BENCHMARK</p>

<p>inclusive learning environment.</p>	<p>learning environment across all program options.</p>	<ul style="list-style-type: none"> • The program should describe how efforts described in response to AS 3.0.1, provide a supportive and inclusive learning environment. • What does the learning environment look like as a result of the efforts discussed in AS 3.0.1? What is the impact? Describe the setting/culture as a result of programmatic diversity-centered efforts. • The discussion expands beyond demographic and statistical diversity; however, it may be supported by data. • The program may discuss a variety of dimensions of diversity and their intersectionality per EP 3.0, however, programs do not need to discuss every dimension of diversity. • Include relevant policies. • Use subheadings to clearly address each component of the standard. • Each program option should be explicitly addressed in response to each standard. 	<p>2 and 3</p>
<p>3.0.3: The program describes specific plans to continually improve the learning environment to affirm and support persons with diverse identities.</p>	<p>Narrative describes specific plans to continually improve the learning environment to affirm and support persons with diverse identities across all program options.</p>	<ul style="list-style-type: none"> • This is a discussion of the program's plans to improve attention to diversity and difference. • Describe how the learning environment emphasizes attention to the dimensions of diversity described in EP 3.0. • Discuss specific plans moving forward/on the horizon. • Programs must describe new specific plans, rather than continuing current operations only. • Include relevant policies. • Use subheadings to clearly address each component of the standard. • Each program option should be explicitly addressed in response to each standard. 	<p>DRAFT AT BENCHMARK 1</p> <p>COMPLIANCE AT BENCHMARK 2 and 3</p>

Educational Policy 3.1—Student Development

Educational preparation and commitment to the profession are essential qualities in the admission and development of students for professional practice. Student participation in formulating and modifying policies affecting academic and student affairs are important for students' professional development. To promote the social work education continuum, graduates of baccalaureate social work programs admitted to master's social work programs are presented with an articulated pathway toward specialized practice.

Accreditation Standard 3.1—Student Development: Admissions; Advisement, Retention, and Termination; and Student Participation

Admissions

STANDARD	COMPLIANCE STATEMENT	COA INTERPRETATIONS & TIPS	DRAFT/COMPLIANCE <i>This column is applicable to candidacy programs only!</i>

Educational Policy 3.2—Faculty

Faculty qualifications, including experience related to the Social Work Competencies, an appropriate student-faculty ratio, and sufficient faculty to carry out a program’s mission and goals, are essential for developing an educational environment that promotes, emulates, and teaches students the knowledge, values, and skills expected of professional social workers. Through their teaching, research, scholarship, and service—as well as their interactions with one another, administration, students, and community—the program’s faculty models the behavior and values expected of professional social workers. Programs demonstrate that faculty is qualified to teach the courses to which they are assigned.

Accreditation Standard 3.2—Faculty

STANDARD	COMPLIANCE STATEMENT	COA INTERPRETATIONS & TIPS	DRAFT/COMPLIANCE <i>This column is applicable to candidacy programs only!</i>
<p>3.2.1: The program identifies each full- and part-time social work faculty member and discusses his or her qualifications, competence, expertise in social work education and practice, and years of service to the program.</p>	<p>The program submits a complete faculty summary form and uniform faculty data forms (CVs) for each full- or part-time faculty member teaching in the current academic year inclusive of faculty across all program options.</p>	<ul style="list-style-type: none"> • REQUIRED FORM: The CSWE website houses the required summary form. • REQUIRED FORM: The CSWE website houses the required faculty data form (CV template). <ul style="list-style-type: none"> ○ Faculty can use a different format for their CVs, as long as the format is uniform and includes all the components of the faculty data form. ○ CVs must include the month/year degrees were earned and dates for all experiences documented in order to verify the requisite degree and post-degree practice was earned for AS 3.2.2 and other accreditation standards • Information provided for each faculty member should be consistent on the required faculty summary form and faculty data forms (CVs). • Include faculty who taught during the academic year reflected in the self-study. Prior to submission, make any updates to reflect the faculty composition at the time of the submission of the self-study. • A narrative or autobiographical sketch is not required for each faculty member. • Use subheadings to clearly address each component of the standard. 	<p>COMPLIANCE AT BENCHMARK 1 and 3</p>

		<ul style="list-style-type: none"> Each program option should be explicitly addressed in response to each standard. 	
<p>3.2.2: The program documents that faculty who teach social work practice courses have a master's degree in social work from a CSWE-accredited program and at least 2 years of post-master's social work degree practice experience.</p>	<p>Narrative identifies and documents that faculty who teach social work practice courses have a master's degree in social work from a CSWE-accredited program and at least 2 years of post-master's social work degree practice experience across all program options.</p>	<ul style="list-style-type: none"> Narrative should affirm that faculty who teach social work practice courses have the requisite credentials. The list of faculty that teach social work practice courses should be consistent with the information reported on the faculty summary form. If the program identifies that all faculty have a master's degree in social work from a CSWE-accredited program and at least 2 years of post-master's social work degree practice experience on the faculty summary form and faculty data forms (CVs), the program does not need to list the individual names of the faculty that teach practice courses. Faculty data forms (CVs) must include the month/year degrees were earned and dates for all experiences documented in order to verify the requisite degree and post-degree practice was earned. It is within the purview of the program to define which courses they consider to be social work practice courses. The 2015 EPAS glossary includes a definition of what constitutes post-master's social work degree practice experience. Use subheadings to clearly address each component of the standard. Each program option should be explicitly addressed in response to each standard. 	<p>COMPLIANCE AT BENCHMARK 1 and 3</p>
<p>3.2.3: The program documents a full-time equivalent faculty-to-student ratio not greater than 1:25 for baccalaureate programs and not greater than 1:12 for master's programs and explains how this ratio is calculated. In addition, the program explains how faculty size is commensurate with the number and type of</p>	<p>Narrative documents a full-time equivalent faculty-to-student ratio not greater than 1:25 for baccalaureate programs and not greater than 1:12 for master's programs inclusive of all program options.</p> <p>Narrative explains how this ratio is calculated inclusive of all program options.</p>	<ul style="list-style-type: none"> Provide numerical FTE ratio (X:X). It is within the purview of the program to determine and explain how the FTE ratio is calculated. Details of the calculation must be provided. Typically, programs calculate the FTE ratio according to the program's faculty workload policy (faculty) and credit hour policy (students). <ul style="list-style-type: none"> For example, if the full-time teaching workload is six courses per academic year, each course covered by a part-time faculty member constitutes one-sixth FTE. For example, if full-time credit hours are considered 12 per semester, a student 	<p>DRAFT AT BENCHMARK 2</p> <p>COMPLIANCE AT BENCHMARK 3</p>

<p>curricular offerings in class and field; number of program options; class size; number of students; advising; and the faculty's teaching, scholarly, and service responsibilities.</p>	<p>Narrative explains how faculty size is commensurate with the number and type of curricular offerings in class and field; number of program options; class size; number of students; advising; and the faculty's teaching, scholarly, and service responsibilities across all program options.</p>	<p>taking 6 credit hours per semester constitutes one-half FTE.</p> <ul style="list-style-type: none"> • Part-time faculty and students should be included in the FTE ratio calculation. • Individuals designated as faculty may be included. • Staff, teaching assistants, graduate student assistants, research assistants, and doctoral students may not be included in the FTE ratio <i>unless</i> they are designated as faculty members on a faculty line. • Non-social work students taking social work courses (e.g., interprofessional education, other social sciences, etc.) are not counted in the ratio. • The FTE ratio should be consistent with the number of faculty identified on the faculty data and summary forms. If the program is co-located (has both the accredited baccalaureate and master's social work program), include the percentage of time assigned to each program level for each faculty member identified. • The number of faculty should support the context of the program. • Discuss how each program option has sufficient faculty. Each program option can have different faculty distribution, as long as the faculty makeup is determined to be sufficient by the program. • Use subheadings to clearly address each component of the standard. • Each program option should be explicitly addressed in response to each standard. The FTE ratio provided should be inclusive of all program options. A separate FTE ratio is not requested nor required for each program option. 	
<p>B3.2.4: The baccalaureate social work program identifies no fewer than two full-time faculty assigned to the baccalaureate program, with full-time appointment in social work, and whose principal assignment is to the baccalaureate program. DRAFT AT BENCHMARK 2 COMPLIANCE AT BENCHMARK 3

Educational Policy 3.3—Administrative and Governance Structure

Social work faculty and administrators, based on their education, knowledge, and skills, are best suited to make decisions regarding the delivery of social work education. Faculty and administrators exercise autonomy in designing an administrative and leadership structure, developing curriculum, and formulating and implementing policies that support the education of competent social workers. The administrative structure is sufficient to carry out the program’s mission and goals. In recognition of the importance of field education as the signature pedagogy, programs must provide an administrative structure and adequate resources for systematically designing, supervising, coordinating, and evaluating field education across all program options.

Accreditation Standard 3.3—Administrative and Governance Structure

STANDARD	COMPLIANCE STATEMENT	COA INTERPRETATIONS & TIPS	DRAFT/COMPLIANCE <i>This column is applicable to candidacy programs only!</i>
<p>3.3.1: The program describes its administrative structure and shows how it provides the necessary autonomy to achieve the program’s mission and goals.</p>	<p>Narrative describes the program’s administrative structure across all program options.</p> <p>Narrative demonstrates how the program’s administrative structure provides the necessary autonomy to achieve the program’s mission and goals across all program options.</p>	<ul style="list-style-type: none"> • Discuss the program’s location in the institutional authority structure. How are decisions made? What is the program’s role in the decision-making process? • Discuss authority, accountability, and autonomy. “Autonomy” is a relative term defined by the program. Does the program have sufficient latitude to effectively implement its mission and goals? • It is helpful to discuss the program’s location in the institutional authority structure in the context of comparable programs. <ul style="list-style-type: none"> ○ For example, to what extent is the social work program’s locus in the hierarchy similar to nursing, physical therapy, psychology, etc. • It is helpful to provide an institutional organizational chart. • It is helpful to provide a program-level organizational chart. • Use subheadings to clearly address each component of the standard. • Each program option should be explicitly addressed in response to each standard. 	<p>DRAFT AT BENCHMARK 1</p> <p>COMPLIANCE AT BENCHMARK 2 and 3</p>

Educational Policy 4.0—Assessment of Student Learning Outcomes

Assessment is an integral component of competency-based education. Assessment involves the systematic gathering of data about student performance of Social Work Competencies at both the generalist and specialized levels of practice.

Competence is perceived as holistic, involving both performance and the knowledge, values, critical thinking, affective reactions, and exercise of judgment that inform performance. Assessment therefore must be multi-dimensional and integrated to capture the demonstration of the competencies and the quality of internal processing informing the performance of the competencies. Assessment is best done while students are engaged in practice tasks or activities that approximate social work practice as closely as possible. Practice often requires the performance of multiple competencies simultaneously; therefore, assessment of those competencies may optimally be carried out at the same time.

Programs assess students' demonstration of the Social Work Competencies through the use of multi-dimensional assessment methods. Assessment methods are developed to gather data that serve as evidence of student learning outcomes and the demonstration of competence. Understanding social work practice is complex and multi-dimensional, the assessment methods used, and the data collected may vary by context.

Assessment information is used to guide student learning, assess student outcomes, assess and improve effectiveness of the curriculum, and strengthen the assessment methods used.

Assessment also involves gathering data regarding the implicit curriculum, which may include but is not limited to an assessment of diversity, student development, faculty, administrative and governance structure, and resources. Data from assessment continuously inform and promote change in the explicit curriculum and the implicit curriculum to enhance attainment of Social Work Competencies.

Accreditation Standard 4.0—Assessment

STANDARD	COMPLIANCE STATEMENT	COA INTERPRETATIONS & TIPS	DRAFT/COMPLIANCE <i>This column is applicable to candidacy programs only!</i>
<p>4.0.1: The program presents its plan for ongoing assessment of student outcomes for all identified competencies in the generalist level of practice (baccalaureate social work programs) and the generalist and specialized</p>	<p>The program's assessment plan was presented for generalist levels of practice (baccalaureate social work programs) and the generalist and specialized levels of practice (master's social work programs) for each program option.</p>	<ul style="list-style-type: none"> • A matrix in table format is <u>very</u> helpful in responding to this standard. A narrative preceding the assessment matrix is required. • A narrative thoroughly describing the assessment plan in response to each bullet point under AS 4.0.1 is required. • The accreditation department has developed a SAMPLE matrix. The CSWE website houses the sample matrix. 	<p>DRAFT AT BENCHMARK 1</p> <p>COMPLIANCE AT BENCHMARK 2 and 3</p>

<p>levels of practice (master's social work programs). Assessment of competence is done by program designated faculty or field personnel. The plan includes:</p> <ul style="list-style-type: none"> • A description of the assessment procedures that detail when, where, and how each competency is assessed for each program option. • At least two measures assess each competency. One of the assessment measures is based on demonstration of the competency in real or simulated practice situations. • An explanation of how the assessment plan measures multiple dimensions of each competency, as described in EP 4.0. • Benchmarks for each competency, a rationale for each benchmark, and a description of how it is determined that students' performance meets the benchmark. • An explanation of how the program determines the 	<p>Assessment of competence was done by program designated faculty or field personnel for all program options.</p> <p>Program provides a description of the assessment procedures that detail when, where, and how each competency is assessed for each program option, including any competencies added by the program.</p> <p>Program provides at least two measures to assess each competency, including any competencies added by the program for all program options.</p> <p>At least one of the assessment measures is based on demonstration of the competency in real or simulated practice situations for all program options.</p> <p>Narrative explains how the assessment plan measures multiple dimensions of each competency, as described in EP4.0 (involving both performance and the knowledge, values, skills, and cognitive and affective processes) for all program options.</p>	<ul style="list-style-type: none"> • The intent and purpose of the curriculum matrix (AS B2.0.3; AS M2.0.3; AS M2.1.4) is different than the assessment plan matrix. The curriculum matrix is snapshot featuring specific required course content strongly relating to each competency/dimension which all students are learning in the classroom. The assessment plan matrix details how the program is capturing competency-based student learning outcomes. These matrices do not need to match even if the program is using a course-embedded measure assessment model. • Each competency must be assessed twice minimally: <ul style="list-style-type: none"> ○ One (1) measure assessing student demonstration in <i>real or simulated practice</i> situations. Behaviors are only required to be the basis of assessment for <i>real or simulated practice</i> measures. Individual behaviors may be scored (behavior-level data collected) or the program may list the behaviors on the instrument as the criteria for scoring each competency, yet not collect behavior-level scores (competency-level data collected). ○ For generalist practice, programs must use all behaviors <i>exactly as written in the EPAS</i> and may choose to develop additional behaviors that represent observable components of each competency that integrate the dimensions. ○ Typically, programs choose a field-based evaluation of student performance in their real practice setting. ○ One (1) demonstration-based measure elsewhere the program chooses. This measure is at the competency-level rather than the behavior-level. Programs may incorporate behaviors into the second measure if desired, although it is not required. ○ Examples include course-embedded measures, end-of-year exams, capstone and senior seminar assignments (e.g., papers, presentations, etc.), portfolios, comprehensive exit exams, etc. 	
---	---	---	--

<p>percentage of students achieving the benchmark.</p> <ul style="list-style-type: none"> • Copies of all assessment measures used to assess all identified competencies. 	<p>Narrative includes benchmarks for each competency for all program options.</p> <p>Narrative includes a rationale for each benchmark across all program options.</p> <p>Narrative includes a description of how it is determined that students' performance meets the benchmark for all program options.</p> <p>Narrative provides an explanation of how the program determines the percentage of students achieving each benchmark for all program option.</p> <p>Program provides copies of all assessment measures used to assess all identified competencies for all program options.</p>	<ul style="list-style-type: none"> • It is completely within the purview of the program to select the two (2) measures that fulfill the requirements of the 2015 EPAS. • The COA does not endorse third-party, commercial, standardized, or customized assessment instruments and packages. Although the COA does not prohibit the use of these commercial packages, it is the responsibility of programs to use assessment plans with assessment measures that are compliant with the 2015 EPAS. • Separate assessment plans are submitted for generalist practice and each area of specialized practice. • Multi-dimensional assessment means programs assess a minimum of two (2) dimensions per competency and one (1) per measure. • Programs should attempt to assess all students and present data for all students, sampling students is not permitted. • Student self-assessment measures are not permitted for assessment of competency-based student learning outcomes per the 2015 EPAS. • For competencies 6-9, it is not required to assess at the systems level (i.e., individuals, families, groups, organizations, communities). Programs may assess the competency as a whole, inclusive of all systems levels, or assess one (1) or more systems levels. • If the program elects to add additional competencies, they should be assessed and included in the matrices. • There are two distinct types of benchmarks: <ul style="list-style-type: none"> ○ <i>Outcome measure benchmark</i> refers to the minimum acceptable score or higher on an identified measure. For example, 4 out of 5 points, 12 out of 15 correct, etc. This is an example only and should be tailored to the program's chosen measures and benchmarks. ○ <i>Competency benchmark</i> refers to the percentage of students the program wants to achieve the minimum scores inclusive of all identified measures. For example, 90% of students will score of 4 out of 5 on their field 	
--	---	--	--

		<p>measure and 12 out of 15 correct on the exam questions related to competency 1. This is an example only and should be tailored to the program's chosen measures and benchmarks.</p> <ul style="list-style-type: none"> • The outcome measure benchmarks and competency benchmarks are within the purview of the program to select. <ul style="list-style-type: none"> ○ The program must be able to provide a rationale for each outcome measures and competency benchmarks. Why did you choose those benchmarks? What information did you base the benchmarks on? What does the benchmark represent? ○ Benchmarks may be realistic, yet aspirational. • Programs can choose to weight outcome measures differently when calculating the percentage of students achieving benchmarks. • Include copies of all assessment instruments, including rubrics (applicable to programs using course-embedded measures). • Course-embedded measures should not include items that do not directly assess the competency (i.e., APA formatting, timely submission, grammar, etc.). <ul style="list-style-type: none"> ○ If the program elects to use course-embedded measures, it is helpful to clearly label on the instrument which competency each rubric line item is capturing. • Use subheadings to clearly address each component of the standard. • Each program option should be explicitly addressed in response to each standard. Programs may choose to utilize the same or different assessment plans for each program option. 	
<p>4.0.2: The program provides its most recent year of summary data and outcomes for the assessment of each of the identified competencies, specifying the percentage of students achieving program</p>	<p>Narrative provides the program's most recent year of summary data and outcomes for the assessment of each of the identified competencies for each program option.</p>	<ul style="list-style-type: none"> • Provide a narrative describing the findings competency-by-competency. This information can be captured in a table format. • The accreditation department has developed a SAMPLE table. The CSWE website houses the sample table. 	<p>DRAFT AT BENCHMARK 2</p> <p>COMPLIANCE AT BENCHMARK 3</p>

<p>benchmarks for each program option.</p>	<p>Narrative specifies the percentage of students achieving program benchmarks for each program option for each program option.</p>	<ul style="list-style-type: none"> • A brief accompanying narrative should be provided explaining how the table is organized, what is included, and how to read/interpret the table. • When presenting the percentage of students achieving benchmarks, present aggregate percentages not means. Means may skew data due to outliers. • For master’s programs, separate data outcomes are presented for generalist practice <i>and</i> each area of specialized practice. Label each set of outcomes clearly. • Programs present multiple levels of data: <ul style="list-style-type: none"> ○ Programs present behaviors-level data (if collected via the <i>real or simulated practice</i> measure). ○ Programs present competency-level for <i>each</i> measure. ○ Programs present competency-level data, aggregated to include all measures per competency (e.g., Measure 1 + Measure 2 / 2 = Total % of Students Achieving Competency, etc.). ○ Programs must include data for each program option. ○ Programs must include data in aggregate, inclusive of all program options • Programs must present all levels of data by the COA’s final decision phase. If data is incomplete or missing for one or more program options, the COA may choose a variety of decision types including but not limited to deferral, progress report, etc. • Use subheadings to clearly address each component of the standard. • Each program option should be explicitly addressed in response to each standard. Separate data outcomes are presented for each program option. 	
<p>4.0.3: The program uses <i>Form AS 4(B)</i> and/or <i>Form AS 4(M)</i> to report its most recent assessment outcomes for each program option to constituents and</p>	<p>The program uses Form AS 4(B) and/or Form AS 4(M) to report its most recent assessment outcomes for each program option to constituents and the public.</p>	<ul style="list-style-type: none"> • REQUIRED FORM: The CSWE website houses the required assessment outcomes form. • Regularly informing the public of assessment findings is a requirement of the Council of Higher Education Accreditation (CHEA) who recognizes CSWE’s COA as 	<p>DRAFT AT BENCHMARK 2</p> <p>COMPLIANCE AT BENCHMARK 3</p>

<p>the public on its website and routinely up-dates (minimally every 2 years) its findings.</p>	<p>The program updates Form AS 4 (B) and/or Form AS 4(M) on its website with the most recent assessment outcomes for each program option.</p> <p>The program updates the Form AS 4(B) and/or Form AS 4(M) minimally every 2 years for each program options.</p>	<p>the sole accreditor for social work education in the U.S. and its territories.</p> <ul style="list-style-type: none"> On this required form, the percentage of students attaining the competency benchmark is inclusive of all identified measures for that competency (e.g., Measure 1 + Measure 2 / 2 = Total % of Students Achieving Competency, etc.). Provide an active hyperlink to the webpage where this form is posted publicly and indicate how frequently it is updated. The hyperlink should not lead directly to a .pdf file because submitting an individual file link does not provide evidence that the form is public facing on the program's website. Identify the program's constituencies, which always includes the public. If programs have cohorts that only admit students every three years, programs may post assessment findings for those cohorts every three years. Use subheadings to clearly address each component of the standard. Each program option should be explicitly addressed in response to each standard. 	
<p>4.0.4: The program describes the process used to evaluate outcomes and their implications for program renewal across program options. It discusses specific changes it has made in the program based on these assessment outcomes with clear links to the data.</p>	<p>The narrative describes the process used to evaluate outcomes for each program option.</p> <p>The narrative describes the implications for program renewal across all program options.</p> <p>The narrative discusses specific changes it has made in the program based on these assessment outcomes with clear links to the data for each program option.</p>	<ul style="list-style-type: none"> This standard discusses the program's process for continually and thoughtfully reviewing data to inform programmatic renewal and changes. What is the process or mechanism employed to formally review the assessment findings and make decisions about the implications for program improvement? What is the procedure used to evaluate the meaning of the findings? For example, faculty committee(s), faculty retreat, student involvement, community or field advisory boards, etc. How do decision makers decide what meaning the findings hold for the program? How are decisions made to modify the program based on the data findings? The response expands beyond changing benchmarks as a result of the assessment findings. A description of program changes must provide sufficient detail (e.g., course modifications, training enhancements, new extracurricular offerings, etc.) 	<p>(Process Only) DRAFT AT BENCHMARK 1</p> <p>(Process Only) COMPLIANCE AT BENCHMARK 2</p> <p>(Complete) DRAFT AT BENCHMARK 2</p> <p>(Complete) COMPLIANCE AT BENCHMARK 3</p>

		<p>explicitly linked to specific findings. If no changes are reported, provide a rationale for that decision.</p> <ul style="list-style-type: none"> • Use subheadings to clearly address each component of the standard. • Each program option should be explicitly addressed in response to each standard. 	
<p>4.0.5: For each program option, the program provides its plan and summary data for the assessment of the implicit curriculum as defined in EP 4.0 from program defined stakeholders. The program discusses implications for program renewal and specific changes it has made based on these assessment outcomes.</p>	<p>For each program option, the narrative provides the program’s plan for assessing the implicit curriculum, including program-defined stakeholders.</p> <p>For each program option, the narrative provides summary data for the assessment of the implicit curriculum, as defined in EP 4.0, including program-defined stakeholders.</p> <p>For each program option, the narrative discusses the implications for program renewal and specific changes it has made based on these assessment outcomes.</p>	<ul style="list-style-type: none"> • New standard in 2015 EPAS. • Must assess a minimum of one (1) aspect of the implicit curriculum defined in EP 4.0 (e.g., diversity, student development, faculty, administrative and governance structure, resources, etc.). • Programs may assess how well they are implementing one or more standards in AS 3 (implicit curriculum). • This assessment focuses on the implicit curriculum (learning environment) not the explicit curriculum (e.g., coursework, competencies, behaviors, dimensions, student learning outcomes, etc.). • Programs may assess a different aspect of the implicit curriculum each year. • Different from the assessment of competency-based student learning outcomes, program may utilize student self-assessment measures based on aspects of the implicit curriculum. Student self-assessment of competence is not an implicit curriculum measure. • Example measures include exit surveys, interviews, focus groups, alumni surveys, culture/climate surveys, strategic planning process data collection, etc. • How is the program proactive on the basis of its findings? • A description of program changes must provide sufficient detail (e.g., course modifications, training enhancements, new extracurricular offerings, etc.) explicitly linked to specific findings. If no changes are reported, provide a rationale for that decision. • Use subheadings to clearly address each component of the standard. • Each program option should be explicitly addressed in response to each standard. 	<p>(Plan Only) DRAFT AT BENCHMARK 1</p> <p>(Plan Only) COMPLIANCE AT BENCHMARK 2</p> <p>(Complete) DRAFT AT BENCHMARK 2</p> <p>(Complete) COMPLIANCE AT BENCHMARK 3</p>
