

Books with Powerful Messages of Social Change

Non-Fiction The journeys of people who navigate social barriers

Fiction A deepening understanding of the human experience and society

Social Analysis Issues, activism, and visions for social change

Social Analysis

This biography explores Alice Walker's life experiences and her lifework in context of her philosophical thought, and celebrates the author's creative genius and heroism. It represents the only biography that offers a philosophical examination of this deeply philosophical artist-activist.

SOCIAL ANALYSIS

Throughout her career as a Texas senator, U.S. congresswoman, and distinguished professor at the Lyndon B. Johnson School of Public Affairs, Barbara Jordan lived by a simple creed: "Ethical behavior means being honest, telling the truth, and doing what you said you were going to do." Her strong stand for ethics in government, civil liberties, and democratic values still provides a standard around which the nation can unite in the twenty-first century. This volume brings together several major political speeches that articulate Barbara Jordan's most deeply held values.

SOCIAL ANALYSIS

Susan Burton's world changed in an instant when her five-year-old son was killed by a van driving down their street. Consumed by grief and without access to professional help, Susan self-medicated, becoming addicted first to cocaine then to crack. As a resident of South Los Angeles, a black community under siege in the War on Drugs, it was but a matter of time before Susan was arrested. She cycled in and out of prison for over 15 years; never was she offered therapy or treatment for addiction. On her own, she eventually found a private drug rehabilitation facility. Once clean, Susan dedicated her life to supporting women facing similar struggles.

SOCIAL ANALYSIS

Tinsley's *"Femme-onade"* mixtape explores myriad facets of black women's sexuality and gender. Her chapters on nontraditional bonds culminate in a discussion of contemporary LGBT politics through the lens of the internet-breaking video "Formation." From pleasure politics and the struggle for black women's reproductive justice to the subtext of blues and country music traditions, the landscape in this tour is populated by activists and artists (including Loretta Lynn) and infused with vibrant interpretations of Queen Bey's provocative, peerless imagery and lyrics.

SOCIAL ANALYSIS

World-renowned activist and poet Sonya Renee Taylor invites us to reconnect with the radical origins of our minds and bodies and celebrate our collective, enduring strength. As we awaken to our own indoctrinated body shame, we feel inspired to awaken others and to interrupt the systems that perpetuate body shame and oppression against all bodies. When we act from this truth on a global scale, we usher in the transformative opportunity of radical self-love, which is the opportunity for a more just, equitable, and compassionate world--for us all.

SOCIAL ANALYSIS

Care Work is a mapping of access as radical love, a celebration of the work that sick and disabled queer/people of color are doing to find each other and to build power and community, and a tool kit for everyone who wants to build radically resilient, sustainable communities of liberation where no one is left behind. Powerful and passionate, *Care Work* is a crucial and necessary call to arms.

SOCIAL ANALYSIS

Disability is not just the story of someone we love or the story of whom we may become; rather it is undoubtedly the story of our nation. Covering the entirety of US history from pre-1492 to the present, *A Disability History of the United States* is the first book to place the experiences of people with disabilities at the center of the American narrative. In many ways, it's a familiar telling. In other ways, however, it is a radical repositioning of US history. By doing so, the book casts new light on familiar stories, such as slavery and immigration.

SOCIAL ANALYSIS

Inspired by Octavia Butler's explorations of our human relationship to change, *Emergent Strategy* is radical self-help, society-help, and planet-help designed to shape the futures we want to live. Change is constant. The world is in a continual state of flux. It is a stream of ever-mutating, emergent patterns. Rather than steel ourselves against such change, this book invites us to feel, map, assess, and learn from the swirling patterns around us in order to better understand and influence them as they happen.

SOCIAL ANALYSIS*

In *Erotic Islands*, Lyndon K. Gill maps a long queer presence at a crossroads of the Caribbean. This transdisciplinary book foregrounds the queer histories of Carnival, calypso, and HIV/AIDS in the Republic of Trinidad and Tobago. This analysis juxtaposes revered musician Calypso Rose, renowned mas man Peter Minshall, and resilient HIV/AIDS organization Friends For Life.

SOCIAL ANALYSIS

Eli Clare's revelatory writing about his experiences as a white disabled genderqueer activist/writer established him as one of the leading writers on the intersections of queerness and disability and permanently changed the landscape of disability politics and queer liberation. His essays weave together memoir, history, and political thinking to explore meanings and experiences of home: home as place, community, bodies, identity, and activism. At the root of Clare's exploration... is a call for social justice movements that are truly accessible to everyone.

SOCIAL ANALYSIS

Extraordinary Bodies is a cornerstone text of disability studies. Framing disability as a minority discourse rather than a medical one, the book added depth to oppressive narratives and revealed novel, liberatory ones. Rosemarie Garland-Thomson encouraged new ways of looking at texts and their depiction of the body and stretched the limits of what counted as a text, considering freak shows and other pop culture artifacts as reflections of community rites and fears. *Extraordinary Bodies* laid the groundwork for an appreciation of disability culture and an inclusive new approach to the study of social marginalization.

SOCIAL ANALYSIS

Christopher Emdin begins by taking to task the perception of urban youth of color as unteachable, and he challenges educators to embrace and respect each student's culture and to reimagine the classroom as a site where roles are reversed and students become the experts in their own learning. With this fresh and engaging new pedagogical vision, he demonstrates the importance of creating a family structure and building communities within the classroom, using culturally relevant strategies like hip-hop music and call-and-response, and connecting the experiences of urban youth to indigenous populations globally.

SOCIAL ANALYSIS

The received idea of Native American history has been that American Indian history essentially ended with the 1890 massacre at Wounded Knee. Not only did one hundred fifty Sioux die at the hands of the U. S. Cavalry, the sense was, but Native civilization did as well. David Treuer has uncovered a different narrative. Because they did not disappear—and not despite but rather because of their intense struggles to preserve their language, their traditions, their families, and their very existence—the story of American Indians since the end of the nineteenth century to the present is one of unprecedented resourcefulness and reinvention.

SOCIAL ANALYSIS

Born Eunice Kathleen Waymon in small-town North Carolina, Nina Simone changed the face of both music and race relations in America. She struck a chord with bluesy jazz ballads like "Put a Little Sugar in My Bowl" and powerful protest songs such as "Mississippi Goddam" and "To Be Young, Gifted, and Black," the anthem of the American Civil Rights movement. Here are the many lives and loves of Nina Simone, recounted in her unshakable voice.

SOCIAL ANALYSIS

Dreisinger looks into the human stories of incarcerated men and women and those who imprison them, creating a jarring, poignant view of a world to which most are denied access, and a rethinking of one of America's most far-reaching global exports: the modern prison complex. From serving as a restorative justice facilitator in a notorious South African prison and working with genocide survivors in Rwanda, to launching a creative writing class in an overcrowded Ugandan prison and coordinating a drama workshop for women prisoners in Thailand, Dreisinger examines the world behind bars with equal parts empathy and intellect.

SOCIAL ANALYSIS

Bryan Stevenson was a young lawyer when he founded the Equal Justice Initiative, a legal practice dedicated to defending those most desperate and in need: the poor, the wrongly condemned, and women and children trapped in the farthest reaches of our criminal justice system. One of his first cases was that of Walter McMillian, a young man who was sentenced to die for a notorious murder he insisted he didn't commit. The case drew Bryan into a tangle of conspiracy, political machination, and legal brinkmanship—and transformed his understanding of mercy and justice forever.

SOCIAL ANALYSIS

Photobiography of early twentieth-century photographer and schoolteacher Lewis Hine, using his own work as illustrations. Hines's photographs of children at work were so devastating that they convinced the American people that Congress must pass child labor law.

SOCIAL ANALYSIS

Mary Brave Bird grew up fatherless in a one-room cabin, without running water or electricity, on the Rosebud Indian Reservation in South Dakota. Rebelling against the aimless drinking, punishing missionary school, narrow strictures for women, and violence and hopelessness of reservation life, she joined the new movement of tribal pride sweeping Native American communities in the sixties and seventies. *Lakota Woman*, is a unique document, unparalleled in American Indian literature, a story of death, of determination against all odds, of the cruelties perpetuated against American Indians, and of the Native American struggle for rights.

SOCIAL ANALYSIS

In his gripping and provocative debut, anthropologist Jason De León sheds light on one of the most pressing political issues of our time—the human consequences of US immigration policy. *The Land of Open Graves* reveals the suffering and deaths that occur daily in the Sonoran Desert of Arizona as thousands of undocumented migrants attempt to cross the border from Mexico into the United States. For two decades, the federal patrol enforcement policy of “prevention through deterrence” has failed to deter border crossers while successfully turning the rugged terrain of southern Arizona into a killing field.

SOCIAL ANALYSIS

2018 Nobel Peace Prize winner, Nadia Murad, tells the story of how Islamic State militants massacred the people of her village including her brothers and mother. Nadia was taken to Mosul and forced, along with thousands of other Yazidi girls, into the ISIS slave trade. Today, Nadia's story—as a witness to the Islamic State's brutality, a survivor of rape, a refugee, a Yazidi—has forced the world to pay attention to an ongoing genocide. It is a call to action, a testament to the human will to survive, and a love letter to a lost country, a fragile community, and a family torn apart by war.

SOCIAL ANALYSIS

Are leaders born or made? Does the leader make the times or do the times make the leader? In *Leadership*, Goodwin draws upon the four presidents she has studied most closely—Abraham Lincoln, Theodore Roosevelt, Franklin D. Roosevelt, and Lyndon B. Johnson (in civil rights)—to show how they recognized leadership qualities within themselves and were recognized as leaders by others. At their best, all four were guided by a sense of moral purpose. In today’s polarized world, these stories of authentic leadership in times of apprehension and fracture take on a singular urgency.

SOCIAL ANALYSIS

Medical Apartheid is the first and only comprehensive history of medical experimentation on African Americans. Starting with the earliest encounters between black Americans and Western medical researchers and the racist pseudoscience that resulted, it details the ways both slaves and freedmen were used in hospitals for experiments conducted without their knowledge—a tradition that continues today within some black populations.

SOCIAL ANALYSIS

In medical school, Paul Farmer found his life's calling: to cure infectious diseases and to bring the lifesaving tools of modern medicine to those who need them most. Tracy Kidder's magnificent account shows how one person can make a difference in solving global health problems through a clear-eyed understanding of the interaction of politics, wealth, social systems, and disease. Profound and powerful, *Mountains Beyond Mountains* takes us from Harvard to Haiti, Peru, Cuba, and Russia as Farmer changes people's minds through his dedication to the philosophy that "the only real nation is humanity."

SOCIAL ANALYSIS

Wait—what's wrong with rights? It is usually assumed that trans and gender nonconforming people should follow the civil rights and "equality" strategies of lesbian and gay rights organizations by agitating for legal reforms that would ostensibly guarantee nondiscrimination and equal protection under the law. But is this strategy effective? In *Normal Life* Dean Spade presents revelatory critiques of the legal equality framework for social change, and points to examples of transformative grassroots trans activism that is raising demands that go beyond traditional civil rights reforms.

SOCIAL ANALYSIS

Notorious RBG, inspired by the Tumblr that amused the Justice herself and brought to you by its founder and an award-winning feminist journalist, is more than just a love letter. An original hybrid of reported narrative, annotated dissents, rare archival photos and documents, and illustrations, the book tells a never-before-told story of an unusual and transformative woman who transcends generational divides. As the country struggles with the unfinished business of gender equality and civil rights, Ginsburg stands as a testament to how far we can come with a little chutzpah.

SOCIAL ANALYSIS

ON THE
OTHER
SIDE OF
FREEDOM

THE CASE FOR HOPE

DERAY MCKESSON

In August 2014, twenty-nine-year-old activist DeRay Mckesson stood with hundreds of others on the streets of Ferguson, Missouri, to push a message of justice and accountability. These protests, and others like them in cities across the country, resulted in the birth of the Black Lives Matter movement. Now, in his first book, Mckesson lays down the intellectual, pragmatic, and political framework for a new liberation movement. He dissects how deliberate oppression persists, how racial injustice strips our lives of promise, and how technology has added a new dimension to mass action and social change.

SOCIAL ANALYSIS

This book argues that the international refugee regime and its 'temporary' humanitarian interventions have failed. Most refugees across the globe live in 'protracted' conditions that extend from years to decades, without legal status that allows them to work and establish a home. It is contended that they become largely invisible to people based in the global North, and cease to remain fully human subjects with access to their political lives. The authors present research and empirical findings gleaned from refugees in Iran, Kenya and Canada and from humanitarian and government workers.

SOCIAL ANALYSIS

For more than 3000 years, hundreds of millions of people have died or been left permanently scarred or blind by the relentless, incurable disease called smallpox. In 1967, Dr. D.A. Henderson became director of a worldwide campaign to eliminate this disease from the face of the earth. This spellbinding book is Dr. Henderson's personal story of how he led the World Health Organization's campaign to eradicate smallpox—the only disease in history to have been deliberately eliminated. Some have called this feat "the greatest scientific and humanitarian achievement of the past century."

SOCIAL ANALYSIS

In *Soil Not Oil*, Vandana Shiva explains that a world beyond dependence on fossil fuels and globalization is both possible and necessary. Condemning industrial agriculture as a recipe for ecological and economic disaster, Shiva champions the small, independent farm: their greater productivity, their greater potential for social justice as they put more resources into the hands of the poor, and the biodiversity that is inherent to the traditional farming “The solution to climate change,” she observes, “and the solution to poverty are the same.”

SOCIAL ANALYSIS

Claude Brown called Black English "Spoken Soul." Toni Morrison said, "It's a love, a passion. Its function is like a preacher's: to make you stand out of your seat, make you lose yourself and hear yourself. The worst of all possible things that could happen would be to lose that language." Now renowned linguist John R. Rickford and journalist Russell J. Rickford provide the definitive guide to African American vernacular English—from its origins and features to its powerful fascination for society at large.

SOCIAL ANALYSIS

The first Muslim woman to receive the Nobel Peace Prize, Shirin Ebadi has inspired millions around the globe through her work as a human rights lawyer defending women and children against a brutal regime in Iran. Now Ebadi tells her story of courage and defiance in the face of a government out to destroy her, her family, and her mission: to bring justice to the people and the country she loves.

SOCIAL ANALYSIS

We Are the Ones We Have Been Waiting For takes on some of the greatest challenges of our times and in it Walker encourages readers to take faith in the fact that, despite the daunting predicaments we find ourselves in, we are uniquely prepared to create positive change.

SOCIAL ANALYSIS

We live in the age of the algorithm. Increasingly, the decisions that affect our lives—where we go to school, whether we get a car loan, how much we pay for health insurance—are being made not by humans, but by mathematical models. Tracing the arc of a person’s life, O’Neil exposes the black box models that shape our future, both as individuals and as a society. Most troubling, they reinforce discrimination. These “weapons of math destruction” score teachers and students, sort résumés, grant (or deny) loans, evaluate workers, target voters, set parole, and monitor our health.

SOCIAL ANALYSIS

Raised by a single mother in an impoverished neighborhood in Los Angeles, Patrisse Khan-Cullors experienced firsthand the prejudice and persecution Black Americans endure at the hands of law enforcement. In 2013, when Trayvon Martin's killer went free, Patrisse's outrage led her to co-found *Black Lives Matter* with Alicia Garza and Opal Tometi. Championing human rights in the face of violent racism, Patrisse is a survivor. She transformed her personal pain into political power, giving voice to a people suffering.

SOCIAL ANALYSIS

Coming to the end of the text

“The close reader will come to the end of a text having undergone something, having experienced an event, having been altered by his or her reading. The close reader deploys full powers of... moral confrontation, fulfilling desires for identity, self-examination, facing up to challenge, and attaining new clarity about the world and self and others.”

— *Rita Charon, Narrative Medicine*
