The Annual Survey of Social Work Programs (Part 1) collects information about social work graduates, students, and financing. This information is used by the social work education community in research, program planning, and advocacy work. Your participation is critical in obtaining a complete picture of social work education.

There is one mandatory question in both the baccalaureate and master's program sections, each marked with an asterisk *, which is used for membership billing. To avoid having to pay the maximum membership dues for your program(s), please be sure to answer these questions.

Please use this Menu page to navigate between the different sections of the survey for your institution/department. You can return to this page at any time by clicking on the 'Menu' button at the bottom center of the page.

If multiple people from your department are completing the survey, please use the same link for each of them to complete their section(s) of the survey - but ensure that the respondents do not click on the final 'Click here to submit your full survey' button until all of the data entered. **You can also stop and return to the point where you left off at any time by using the original link that you used to access the survey - just make sure to return to the menu before leaving to save your progress.**

If you have any questions while completing the survey, please contact us at research@cswe.org.

Thank you for your time in collecting this valuable data.
